

September 14, 2022

To the Board of Trustees
Willard Public Library

We have audited the financial statements of Willard Public Library (the "Library") as of and for the year ended June 30, 2022 and have issued our report thereon dated September 14, 2022. Professional standards require that we provide you with the following information related to our audit

Our Responsibility Under U.S. Generally Accepted Auditing Standards

As stated in our engagement letter dated April 5, 2022, our responsibility, as described by professional standards, is to express an opinion about whether the financial statements prepared by management with your oversight are fairly presented, in all material respects, in conformity with U.S. generally accepted accounting principles. Our audit of the financial statements does not relieve you or management of your responsibilities. Our responsibility is to plan and perform the audit to obtain reasonable, but not absolute, assurance that the financial statements are free of material misstatement.

As part of our audit, we considered the internal control of the Library. Such considerations were solely for the purpose of determining our audit procedures and not to provide any assurance concerning such internal control.

We are responsible for communicating significant matters related to the audit that are, in our professional judgment, relevant to your responsibilities in overseeing the financial reporting process. However, we are not required to design procedures specifically to identify such matters.

Planned Scope and Timing of the Audit

We performed the audit according to the planned scope and timing previously communicated to you in our meeting about planning matters on August 5, 2022.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. In accordance with the terms of our engagement letter, we will advise management about the appropriateness of accounting policies and their application. The significant accounting policies used by the Library are described in Note 1 to the financial statements. Effective July 1, 2021, the Library adopted the provisions of Governmental Accounting Standards Board Statement No. 87, *Leases*. The new accounting standard did not significantly impact the financial statements.

We noted no transactions entered into by the Library during the year for which there is a lack of authoritative guidance or consensus.

There are no significant transactions that have been recognized in the financial statements in a different period than when the transaction occurred.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected.

Management's estimate of the valuation of the collection is based on the historical weighted-average cost. We evaluated the key factors and assumptions used to develop the valuation of the collection in determining that it is reasonable in relation to the financial statements taken as a whole.

The defined benefit pension and OPEB information is based on actuarial valuations, which use significant actuarial assumptions and the entry actual age cost method to determine required contributions from the Library, and the net pension and OPEB liabilities. In addition, the actuarial valuation of the assets is determined using techniques that smooth the effects of short-term volatility over a four-year period. We evaluated the key factors and assumptions used to develop the accounting estimates in determining that they are reasonable in relation to the financial statements taken as a whole.

The disclosures in the financial statements are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in performing and completing our audit.

Disagreements with Management

For the purpose of this letter, professional standards define a disagreement with management as a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report.

We are pleased to report that no such disagreements arose during the course of our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are trivial, and communicate them to the appropriate level of management.

We did not detect any misstatements as a result of audit procedures.

The Library has passed on the disclosure of actual sick and vacation time used and, rather, has shown the net change in accrued compensated absences. Management has determined that their effects are immaterial, both individually and in the aggregate, to the financial statements taken as a whole.

Significant Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, business conditions affecting the Library, and business plans and strategies that may affect the risks of material misstatement, with management each year prior to our retention as the Library's auditors. However, these discussions occurred in the normal course of our professional relationship, and our responses were not a condition of our retention.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated September 14, 2022.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a second opinion on certain situations. If a consultation involves application of an accounting principle to the Library's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

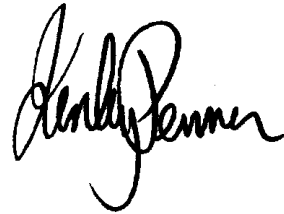

To the Board of Trustees
Willard Public Library

September 14, 2022

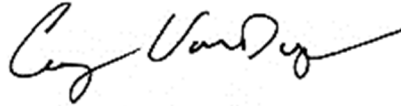

This report is intended solely for the use of the board of trustees and management of the Library and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,
